## About us

Conservas Juker was born with the experience of Conservas Adoración, which gives way to a new generation.

Conservas Juker takes the wheel, while preserving the traditional home-made art in all its elaborations. Starting from fresh high quality products, with the finest home grown fruits of La Rioja and neighboring Navarra, we developed privileged preserves without additives or preservatives, exclusive flavor directed to the most demanding palates.

In our catalog, we take great care of those dishes that are not from our land, following the guidelines established in its place of origin. From home-made recipes of always, we bring to our products the certain degree of innovation that makes a difference in Conservas Juker.
